**New Delhi**A survey undertaken by the website MyHiringClub.com on IT skill hiring in other industries except IT and ITES in India has revealed that the picture is improving for the first quarter and job hunters may want to focus their efforts on banking and financial services, FMCG, telecom and retail sectors.

Senior human resource personnel and top management of 126 employers and 423 recruitment consultants were queried about their hiring intentions and trends of IT skills in other industries in present quarter vis-a-vis the last year and their views about the whole year.

All companies and consultants are associated with MyHiringClub.com. The survey was conducted across eight industry segments (Except IT & ITES) that included seven Indian cities.

Commenting on survey, Founder and CEO Rajesh Kumar, MyHiringClub.com Said "Riding the wave of the revival in India, IT skills hiring showing positive trend in other industries also lead by banking and financial services and followed by FMCG, telecom, retail, manufacturing and automobile, telecom and real estate sectors. A lot of high value IT Skill in other industries is likely to take place in this year and coming few years

MyHiringClub is neither a job portal nor a recruitment agency; it is an enterprise application for employers and recruitment agencies to efficiently manage job transactions through innovative candidate and vendor management modules at absolutely no additional cost.
